

CAN'T TOUCH LIQUOR EN ROUTE TO CONSIGNEE.

Goods Must Reach Purchaser Before Prohibitory Law Has Jurisdiction in Oklahoma.

Guthrie, Okla., March 30.—Interstate shipments of liquor are protected from the operation of the state prohibitory law until they reach the home of the consignee, according to a decision rendered by the criminal court of appeals today. The opinion of the court constitutes a precedent in determining of what an interstate shipment consists.

The decision was rendered in a case appealed from the county court of Love county.

BILLY BRINE.

It seems needful to say a word about cleansing agents. Liquids like gasoline, alcohol, ether and chloroform vaporize almost instantly, and the vapor ignites at once if a flame is near. They should never be used near a flame, always in a strong current of air, and preferably out of doors. Even there fatal burns have been received caused by the friction of rubbing silk wet in gasoline. No article should be put away until all odor of the cleanser has disappeared. Serious consequences have been known to result from using gasoline on carpets and then closing doors and windows.

Gasoline used out of doors in cold weather injures the hands; the rapid evaporation and low temperature cause the skin to become thick and leathery, and months of care are necessary to restore it to normal condition.—"The Household Interests," in The Ladies' World for April.

James King of Callaway's Undertaking Establishment, went to Peirce City Thursday to embalm the body of Mrs. Harriet L. Rodman who died Wednesday night.

PASSENGER TRAIN WRECKED

Passenger Train No. 9 Ditched Near Ritchey

Tuesday night passenger train No. 9 was ditched two miles east of Ritchey caused by the breaking of a wheel on the Jim Crow car.

The combination car, smoker, chair car and two Pullmans went into the ditch. Several of the passengers were more or less injured but none of them fatally. The engine and tender and mail and express cars remained on the track.

Drs. Hawkins and Dusenbury and L. D. McKee went down on a special and took care of the injured. By a strange coincidence three Frisco claim agents were on the train—Spaulding, Edgar and other whose name we failed to get.

The track was considerably torn up and traffic was suspended for several hours or detoured by other routes.

The Injured

Following are the names of the most seriously injured in the Meteor wreck near Ritchey Tuesday night:

Charles Bradford, colored, of St. Louis, injuries to back and right leg; not as serious as was at first thought.

Mrs. Mary Agnee, Springfield, fracture of the sixth rib of the left side.

W. B. High, 424 Mt. Vernon St., Springfield, reported that his left shoulder was dislocated, but the joint had slipped back into place before his arrival at the Frisco hospital at Springfield.

The others who reported injuries were:

Mrs. Maggie Betche, Womdsor, Pa.; nervous shock.

Miss Betchel, Womdsor, Pa.; nervous shock.

J. M. Purnam, Mt. Pelier, Ind.; scalp lacerated slightly.

Mrs. W. L. Young, Washburn; right knee joint sprained.

Peter T. Miller, Macon City; abrasion of the interior portion of the left leg; not serious.

Mrs. Lillie D. Miller, Macon City; injury to back of head and left side of chest.

Special Agent Penn, of the Frisco, obtained his first conviction under the separate car law of Oklahoma, Wednesday, and the interesting feature was that the penalty ran against a white man, for trespassing in a car for colored. A white man had run amuck of the passenger train in charge of Conductor Sweeney, using a knife in threatening the conductor and had undertaken to clean out the colored car. He was arrested and given a preliminary hearing at Idabel, upon two charges. He was fined \$25 for violating the separate car law, and was held to the circuit court on charge of assault with intent to kill upon the conductor.—Rogers Journal.

Had Provided for Pets.

Francois Coppee, the French author, like many artists and actors, was exceedingly fond of cats, and for years he had in his house in Paris and in the beautiful rose garden back of the house a number of fine specimens, including several valuable natives of Persia. When Coppee died, to be followed soon by his devoted sister, who was his nurse, the Paris Animal Protective society felt called upon to look for the cats, which were supposed to have been left in the deserted Coppee home to starve. Investigation showed, however, that the master had anticipated the end. He had given all his pets to friends.

What's in a Word?

Two men were discussing the trouble in India, and each had a deal to say about his notion of Hindu character. "They're such a bellicose set of people," said one. "Indeed!" exclaimed the other, in surprise. "I was always under the impression that they were very spare men."—Harper's Weekly.

A Veteran's Advice.

Miss Gertrude Coghan, daughter of that superb technician, the late Charles Coghan, used to act little roles under her father's eye, when she was a child. Once this dialogue was exchanged, she says: "What shall I do with my hands?" "Forget them," my father replied. PROTECTION.
